

# HIDDEN DOT-TO-DOT

There's an animal in hiding!  
Connect the dots to see what it is.

Once you've connected the dots fill the body  
with lots of patterns as a camouflage!

## DID YOU KNOW?

The combination of colors and shapes that an animal uses to hide itself is called CAMOUFLAGE. Some animals use this to hide from predators that might eat them, and others use it to make it harder for the prey they eat to spot them and run!
